

PRE-GRID INSPECTION CHECKLIST

The driver of a vehicle being driven on the Dominion Raceway road course is exclusively responsible for ensuring that the vehicle they are driving is suitable for safe operation on the track. The Pre-Grid Inspection Checklist is primarily a “last-minute” check of the safety precautions that should have already been taken, and the required safety equipment.

Driver Name: _____ Car Number: _____
(please print)

The driver is to review and check-off all items below that have been carried-out or are in-place, and then sign and date below. Once all items are checked-off & the document is signed, the driver should submit this form to the Check-In desk in exchange for a **Driving Day Inspection Sticker**. The driver should then place the sticker on the front window, on the upper-driver’s-side corner. (NOTE: The Grid Marshal may also do a spot-inspection of the vehicle & safety equipment). The Inspection Sticker must remain on the vehicle the entire time it is participating in the Member Driving Day.

REQUIRED SAFETY EQUIPMENT

- ☐ **Helmet** – Snell SA 2005 or later, with full face visors in open cars
- ☐ **Seat Belts** – Street quality; OEM or better
- ☐ **Tires** – DOT approved tires, suitable for 80 MPH
- ☐ **Fire Extinguisher** – Not required, but if present, it must be securely mounted, ideally in “hands reach”
- ☐ **Shoes** – Non-skid soles, closed-toe shoes, no sandals

SAFETY CHECKLIST

- ☐ I have reviewed the Vehicle Safety Inspection Checklist and feel confident that my vehicle complies with all items.
- ☐ Tire pressures have been checked and adjusted to meet manufacturer’s recommendations or acceptable track settings.
- ☐ Tires have been inspected for adequate tread depth and any damage to the integrity of the tire.
- ☐ Wheel lug nut tightness has been checked and adjusted to meet manufacturer’s recommendations.
- ☐ Loose items have been removed from the interior, trunk, and glove box, including loose floor mats.
- ☐ Brake fluid reservoir is full and has a fresh appearance.
- ☐ Brake pads have adequate thickness (if possible to see with wheel on)
- ☐ Brake lights are working.
- ☐ The windows are clean and unobstructed, and windows are rolled-down wherever a person will be sitting.
- ☐ Spare tire is securely fastened or removed.
- ☐ If the vehicle has exposed GLASS headlights and fog lamps they have been taped.
- ☐ The assigned car number has been applied to both sides of the vehicle.
- ☐ If the driver has less than 2 full days of track experience in the Run Group they are running in, an “X” has been placed in the upper left corner of back windshield

By accepting the Driving Day Sticker on my vehicle, I agree that I am solely and completely responsible for inspecting any vehicle that I drive or ride in as a passenger, whether or not I own such vehicle, before going on the track, and that no one affiliated with The Drivers Club, LLC and/or Dominion Raceway Holdings, LLC will inspect my or other vehicles. Each driver bears the sole responsibility for the vehicles that they drive and any condition that they may cause. The Drivers Club, LLC, Dominion Raceway Holdings, LLC, and the employees, contractors, and volunteers of either entity, assume no responsibility, nor liability, for the safety of your automobile.

Driver Signature: _____ Date: _____
